+1-614-956-6272

Research Interests

Mechanistic Interpretability, Physical World Models, Cross-Modal Generative AI, Radar-Based Human Sensing

Education

- **The Ohio State University** — **Columbus, OH**
  Ph.D. in Computer Science and Engineering — *2022–Dec. 2027 (Expected)*
  - **Advisor:** Dr. Anish Arora
- **National Taiwan University** — **Taipei, Taiwan**
  M.S. in Electrical Engineering — *2015–2017*
- **National Cheng Kung University** — **Tainan, Taiwan**
  B.S. in Photonics — *2011–2015*

Research and Industry Experience

- **The Ohio State University** — **Columbus, OH**
  Graduate Research Assistant — *Aug. 2022–Present*

  Primarily working on physics-grounded mechanistic interpretability for radar generative models (Three first-author publications).
  - Developed a spatiotemporal transformer, MoCap2Radar, which synthesizes micro-Doppler radar signatures from human motion capture data. (HICSS-59)
  - Analyzed whether MoCap2Radar models has learned Doppler radar physics through behavioral and explainability-based tests. (RadarConf 2026)
  - Proposed a physics-grounded interpretability framework for testing whether neural networks realize physical laws. (ICML Workshop 2026)
- **CITI, Academia Sinica** — **Taipei, Taiwan**
  Research Assistant (Mentor: Dr. Ronald Y. Chang) — *2019–2021*

  Developed ML methods and interpretability techniques for WiFi signal-based indoor localization. (Three first-author publications)
- **Automated Verification & Software Testing Lab, NTU** — **Taipei, Taiwan**
  Graduate Research Assistant — *2015–2017*

  Developed methods for automated sandbox deployment in DevOps.
- **Taipei Digital Group** — **Taipei, Taiwan**
  Data Science Intern — *Summer 2016*

  Developed ML methods for content classification to improve search engine optimization.

Workshop Papers

[W1] **Kevin Chen**, Kenneth W. Parker, and Anish Arora, "LAWFUL: Law-Aligned Witness for Faithful Use of Latents," *Mechanistic Interpretability Workshop at the 43rd International Conference on Machine Learning (ICML 2026).*

Conference Publications

[C1] **Kevin Chen**, Kenneth W. Parker, and Anish Arora, "What Physics do Data-Driven MoCap-to-Radar Models Learn?," *IEEE Radar Conference (RadarConf 2026).*
